SQUARE ONE

MASTERS OF MOBILITY
ROBOTS ON THE ROAD

Robots on the Road

Join us for a 2-day workshop delving into the world of Micro:Bits and computer science. This workshop is geared towards 3rd-8th grade teachers

- Teachers are introduced to physical computing and sensor technologies as they code this simple vehicle to operate autonomously
- Integrates many NGSS computer science principles
- Participants will receive a kit with 1 micro:bit and robotic vehicle
- Industry experts will make presentations on the sector and "in demand" career pathways
- This training will give teachers the background that they need to participate in the grant-funded Square One V2X Innovative Vehicle Design competition if desired
- 13 SCECHs available

When: September 19-20, 2024

Time: 8:30 - 3:30

Cost: $25

Limited spaces available
